What Matters

At TRUNK, we believe in changing the relationship with the things we own. Your shiny new laptop is more than a possession. It's an investment you decided to make in yourself. That investment should last you a long time. And if we have any say in it, we want to make that happen. While we want you to look stylish when you're carrying around your TRUNK sleeve, we also want you to have peace of mind knowing we're doing our part in protecting what matters; your investment in yourself.

TRUNK™

Lot of Things

You probably buy a lot of things. We all do. Things keep the world going round. Things allow us to stay connected with one another, make amazing foods, and listen to some head-bobbing music. However, everything costs money. Everything uses our world's resources. And while virtually everything is replaceable, we believe in helping make things last a little bit longer.

To us, a protective sleeve is more than just a product. It is our passion. And we strive to create the most unique and dependable materialisation of that passion every single day; with you in mind.

Each one of our sleeves have been designed with purpose. We view the design process as a personal one. We know our sleeve may be at your side everyday, may end up traveling to countries around the world, and will last for years, and styles, to come. We don't design for the sake of having a design. We design with you in mind.

We will only put out products we truly believe in. We will never settle for good enough in design or quality. When you trust our sleeve to help you get your laptop safely to work, we hope you'll take a moment to appreciate what went into making them as much as we do.

The Resource Impact

The worldly resources needed to make a laptop sleeve is lesser than those needed to make a new laptop. By keeping your laptop safe and around for years to come, you are doing your part in reducing wasteful spending and helping keep our shared world just a little bit cleaner, a little bit longer.

Zip It

The zipper is the gatekeeper of our sleeves; keeping your items secure and protected from the outside world. We treat this small, but important piece of metal with the same respect we give to the rest of the product. Because for us quality matters in every aspect of what we do.

Zig Zag

Nothing in life follows a straight line. We believe our signature zig zag design captures the essence of both the beauty and chaos of life. We want you to see our sleeves and know that we know you'll have it with you through the good and the bad.

Well cut and perfect fit

Shaped to perfection and snuggling your valuables. We wanted our sleeves to feel like they almost aren't there. Not only does this look great, but it also helps keep your items safe. No need to carry around extra bulk. You have enough to worry about in your life already.

Trunk Apple Peel Sleeve, black

– MacBook Pro 13"/MacBook Air 13"

PN TR-APALS13-BLK
RRP 67,99 €
EAN 5711381003522

- Our NEW sustainable sleeve for MacBook Pro made of APPLE WASTE from food industry in northern Italy. Yes, you got it right!
- Of course it is not made 100% out of apple waste. But part of it is and we are getting closer to making a laptop sleeve in a more sustainable way than ever before. The apple skin is dried, reduced to powder and coagulated with PU.
- By keeping your laptop safe and around a little bit longer, you are doing your part in reducing wasteful spending and helping keep our shared world just a little bit cleaner, a little bit longer.
- This sustainable, premium sleeve has a lower impact on the environment than similar products made of traditional material such as animal based products.
- Outer layer made from premium leather. Also used by literally every high-end fashion brand.
- Tough on the outside - super soft and plushy on the inside.
- YKK zipper made from non-scratchy nylon.
- Durable stitches that remain stitched.
