- Nano takes care of everything your plant need: light and nutrients.
- Nano is a hydroponic system, meaning that your plant grows in water and is supported by a lamp with LED light. Thanks to this, your herbs will be under perfect conditions all the time, even during dark winter days.
- The patented FLO2AT design allows your plants' roots to develop to their full potential, right underwater
- Pods are designed to supply your plants with the best possible growth circumstances. The substrate is made out of coconut fiber, peat and nutrients. This brings together all the essential ingredients for a successful growth.
- Nano's light source can be paired with Bluetooth to the Pret a Pousser app, which will allow for advanced settings, adjusted to your plants and your own lifestyle (light cycle and brightness mode); you can also set up the left and right sides of the light source differently
- Light source casing is made of HIPS (High Impact Polystyren), as well as the pots and floaters.

Dimensions and parameters:

- 12 LEDs
- 2,5W
- Height: 45,4 cm
- Width: 10,5 cm
- Depth: 13,3 cm
- Length of cable: 2m
- Weight: 0,9 kg

Nanoleaf Lines

- Additional light lines to take your design to the next level. Requires Nanoleaf Lines Smarter Kit.
- Smart backlit LED light bars that deliver stunning RGB illumination in a never-before-seen modular form factor
- Connect Lines together into your own personalized geometric layouts, and customize 16M+ colours and light animations to create a design piece truly unique to your space.
- Screen Mirror Feature - sync with the colours from your PC screen in real time for an ultra-immersive gaming or movie watching experience.
- Music Visualizer - watch the lights react and dance to the beat of your music in real time.
- Flexible Control: AppleHomeKit, Google Assistant, Amazon Alexa), Nanoleaf App (mobile, tablet or desktop), or manual buttons on the controller.
- Simple Adhesive Setup - mount to any smooth surface with the included double-sided Mounting Tape.
- Works with Razer Chroma - sync brilliant colour effects across all of your compatible Nanoleaf and Razer Chroma devices while you game!
- Works as Thread Border Router
