Peak Design Car Mount Vent Charging, black

PN M-CM-AD-BK-1
RRP 114,99 €
EAN 818373023119

- You get what you pay for with car vent mounts, and the Peak Design Car Vent Mount is hands-down the strongest, sturdiest, most adjustable vent mount money can buy. Traditional vent mounts are fraught with frustration: they're flimsy and prone to falling off, they're difficult to position, and they completely block airflow. Built from solid machined aluminum, the PD Car Vent Mount fastens to your vent with 2 points of connection for considerably more strength and stability. A 360-degree swivel arm lets you position your phone away from your vent for better airflow and easier viewing. And to top it off, this mount uses our SlimLink™ mounting system—powerful magnets and a UV-shielded anti-slip pad instantly grab hold of your phone in portrait or landscape. Adjust the viewing angle with a buttery-smooth aluminum ball head. This mount is strong enough for any kind of driving, off-road included.
- Compatible with many but not all car vents (see compatibility specifications below). Requires a Peak Design Case or Universal Adapter (sold separately). Also works with MagSafe phones and phone cases. Charging may not be possible or optimal when using the Universal Adapter.
