Billfodl | Mobile Origin

## Billfodl Seed Phrase Holder

PN BIL-1  
RRP 109,99 €  
EAN 860424002000

**Billfodl is the most secure way to store your crypto wallet backup offline, safe from hackers and acts of god.**

- Using a randomized set of character tiles, you recreate your recovery phrase in the steel unit, creating an almost indestructible back up. Works best with Crypto wallets like Ledger and Trezor.

### Universal Compatibility

Billfodl is compatible with every hardware and software wallet on the market. It can support BIP39 seeds of 12, 18, or 24 words - no matter the coin.

### Simple Set Up

Have your recovery seed backed up and ready to go in less than 10 minutes. Our 'no stamping required' method means a fast backup without sacrificing security.

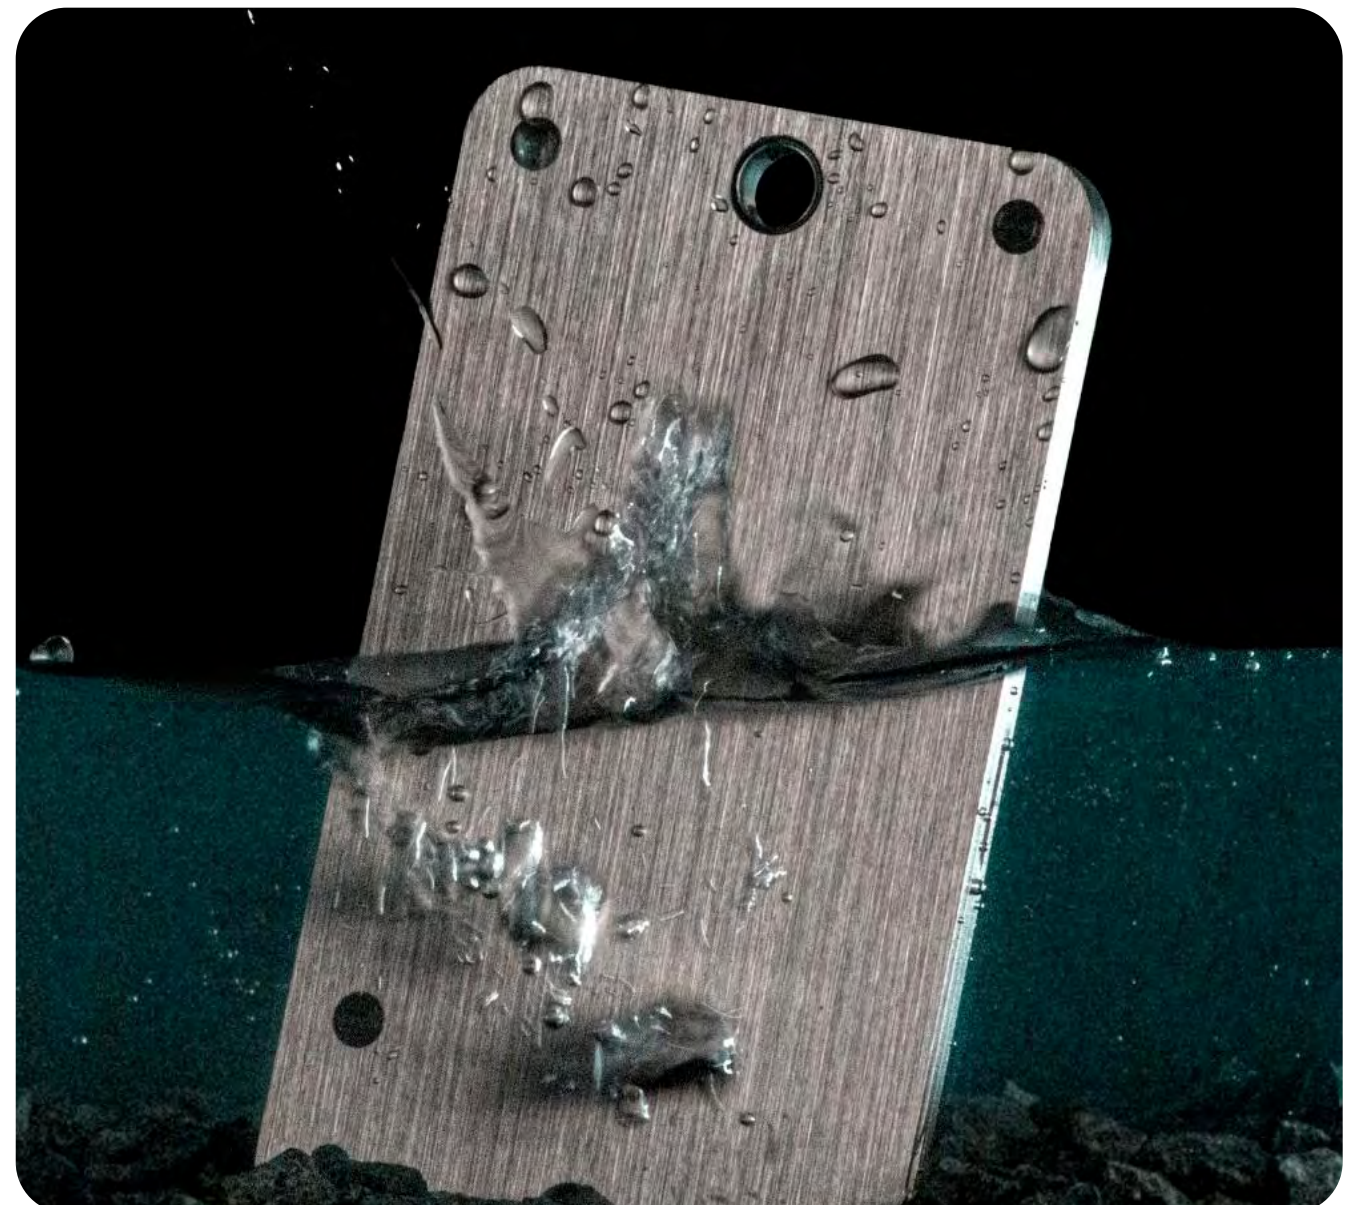

### Laser-Engraved Tiles

Because our tiles are laser engraved, it means your recovery seed is backed up on characters that are burned permanently into the stainless steel they are engraved on.

### Laser Cut Chassis

The main unit is laser cut, which means that, unlike other similar products, the tiles always fit exactly the same every time, making it easier to load and more likely to retain its structure in a fire.

## Screen Guard with easy applicator 2 pack for iPhone 11 Pro / XS / X

PN SGA-i11Pro-2pk  
RRP 21,99 €  
EAN 8594215990239

- Scratch and fingerprint protection – the hardness of the protective glass protects the screen from scratches and fingerprints, improving the aesthetics and readability of the screen.
- Anti-crack protection – the higher hardness of the protective glass increases its resistance to impacts and drops, minimizing the risk of cracking or tearing the phone screen.
- Glare reduction – protective glass can minimize glare and improve screen readability in bright sunlight or other lighting conditions.
- Improve image quality – protective glass can improve image quality, sharpness and clarity.
- Chemical resistance – protective glass contains a chemical composition that improves the screen's resistance to chemicals and acids.
- Wear resistance – due to the hardness, the protective glass will wear less, meaning it will retain its clarity and quality for longer.
- Water protection – the protective glass has a water-repellent layer that prevents water from entering the screen and reduces the risk of damage.
- Improved grip – protective glass can

- improve the grip of your fingers on the screen, improving the handling and control of your phone.
- Easy to install – our protective glass is easy to apply with installation kits.
- unique screen protector installation way in the market with auto position of the glass
- dust remove automatically when peel off the first outer film
- 4X stronger glass, 9H hardness, anti-shock, anti-explosion, anti-scratch
- electroplating process makes super smooth surface
- bubble free, anti-fingerprint
- Japan Asahi Glass, SEGI chemical glue

- Package includes:
- Tempered glass 2 pcs
  - Installation tray
  - Cleaning cloth, Alcohol Wipe, Dust Removal Sticker
