Petcube

PetCub is a leading brand focused on smart pet cameras that bring innovative technology solutions for tracking and communicating with your pets. PetCub cameras allow you to monitor your pets in real-time through a mobile app, giving you peace of mind that your four-legged friends are safe. Equipped with features like two-way audio, they allow you to not only hear, but also talk to your pets remotely. Night vision and high resolution images ensure a clear and detailed view of what's going on at home, even when it's dark. With motion sensors, the cameras alert you to any activity, allowing you to respond immediately to any problems. PetCub cameras are designed with simplicity of installation and use in mind, meaning they can be easily set up and operated by any owner. The sleek and modern design of the cameras fits into any interior without compromising its aesthetics. PetCub cameras are the ideal solution for anyone who wants to keep an eye on their pets at all times, ensuring they feel safe even when they are not at home. With PetCub you can be sure that your pet is always safe and never feels lonely.

Petcube Bites 2 Lite

PN **BL10US**
 RRP **149,00 €**
