

DECODED

DECODED

Decoded introduces the new Detachable Wallet cases for iPhone 16 that combine style, functionality and premium materials. These cases are made from high quality leather, ensuring not only a luxurious look but also durability. Detachable Wallet combines a protective phone cover with a handy detachable wallet that provides ample space for cards and cash. A magnetic system allows the wallet to be easily attached and detached from the cover, increasing flexibility of use. The case offers full access to all iPhone 16 buttons and ports, ensuring hassle-free handling. The minimalist design is ideal for those who prefer sleek and practical accessories. Thanks to its precision craftsmanship, the case guarantees maximum protection against bumps, scratches and normal wear and tear. The Detachable Wallet is available in several colour options to match different personal styles. This innovative product is ideal for everyday use, whether for travel or business meetings. Decoded thus shows once again how modern design can be combined with practical use.

Detachable Wallet

One case. Two solutions.

Leather detachable wallet case. This innovative case serves as both a protective cover and a functional wallet, offering the perfect combination of luxury and practicality.

The case is made from premium full-grain Ecco leather and exudes sophistication while ensuring durability. The leather is designed to age beautifully and acquire a rich patina over time without wearing out. The ultra-smooth and compact design makes it the thinnest wallet ever, ensuring a sleek profile that complements the elegance of your iPhone.
