Native Union

Native Union's new iPhone 16 cases offer modern design and practical functionality. (RE)CLASSIC Case is designed with sustainability in mind, as it is made from recycled materials. The Active Case, on the other hand, emphasizes durability and protection for an active lifestyle, making it an ideal choice for those who are constantly on the move. Both cases are available in a sleek black finish, as well as other colour options. The design of these cases reflects a minimalist approach with an emphasis on both aesthetics and practicality. They are compatible with all iPhone 16 features, including wireless charging. The materials used for these cases are of high quality and guarantee a long service life. (RE)CLASSIC Case is a combination of classic style and an eco-friendly approach. The Active Case, on the other hand, offers maximum protection without compromising on design.

With this, the Native Union brand continues its innovative approach to mobile accessories.
